COVID-19 Tip #6

Shared Housing: Limit your exposure to Coronavirus

What is considered shared housing?

- Multiple families in one home
- Roommates
- Detention centers or jails
- Long term care facilities
- Group homes
- Homeless shelters

Actions to reduce your risk of infection:

- Wear a face mask around others.
- Wash your hands frequently.
- Move furniture to keep a 6ft distance.
- Disinfect shared surfaces and areas twice daily.
- Open a window or turn on the AC to increase air flow.
- Go outside and be active.
- Wash your hands frequently.
- Wear a face mask around others.
- Ask others to not have visitors.
- Stagger meals and activities in shared spaces to limit contact.
- Avoid sharing dishes, glasses, eating utensils, towels and clothes.
