

COVID Vaccine Booster

The vaccine is important for your health, the health of your family and community.

What is a booster?

A booster shot increases your immunity after completing your COVID vaccination series.

Who is eligible for a COVID booster shot?

- Everyone 5 years and older should receive a booster after completing their COVID-19 vaccine primary series.
- The following people should receive a 2nd booster **4 months after the 1st booster** if:
 - Aged 50 or older
 - Moderately or severely immunocompromised

It's always free!

Available at:

- pharmacies
- Publix
- Walmart

When should you get a COVID booster? If you received:

Pfizer or Moderna:
5 months AFTER the 2nd dose of the vaccine

Johnson & Johnson:
2 months after the single dose

Is it true that you can mix and match vaccines?

Yes, medical professionals have approved that you can receive a booster shot of a different brand than your initial vaccine.

Those who are eligible to receive their booster shot can choose which vaccine they want to receive.

Ask your doctor or pharmacist which vaccine to choose if you have questions.
