What is a booster?
A booster shot increases your immunity after completing your COVID vaccination series.

Who is eligible for a COVID booster shot?
- People 12 and older who received Pfizer, and people 18 and older who received J&J and Moderna vaccines
- The following people should receive the booster, if:
  - People older than 50+
  - Have a chronic condition
  - Live in shared housing
  - Work in agriculture or where they have close contact with others

When should you get a COVID booster?
If you received:

- **Pfizer or Moderna:**
  - Wait 5 months AFTER the 2nd dose of the vaccine

- **Johnson & Johnson:**
  - Wait 2 months after the single dose

Is it true that you can mix and match vaccines?
Yes, medical professionals have approved that you can receive a booster shot of a different brand than your initial vaccine.
Those who are eligible to receive their booster shot can choose which vaccine they want to receive.

It's always free!

Available at:
- pharmacies
- Publix
- Walmart

Ask your doctor or pharmacist which vaccine to choose if you have questions.
